SUMMARY

Software Engineering student at PUCIT. Focused on mastering Computer Science fundamentals while developing real-world web projects using HTML, CSS, and JavaScript to refine my problem-solving and front-end skills.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2024 - Present

Punjab University College of Information Technology

- Building a strong foundation with focus on programming, problem-solving, and software development principles.
- Gaining practical experience through coursework and small-scale projects.

Intermediate (Pre-Engineering)

Sept 2022 - Aug 2024

Government College University, Lahore.

- Studied core subjects including Mathematics, Physics, and Chemistry.

PROJECTS

Personal Portfolio

Built a responsive personal portfolio website using HTML, CSS, and JavaScript. Showcases projects, skills, and contact information with a clean UI. Deployed on Vercel. [GitHub](#)

GitHub Profile Finder

Developed a GitHub profile search tool using the GitHub REST API. Fetches and displays user profile data including bio, followers, and latest repositories. Implemented async/await, error handling, and dynamic DOM rendering. [GitHub](#)

Weather App

Developed a weather application using a weather API to fetch real-time weather data. Displays temperature, conditions, and location-based search results with a responsive interface. [GitHub](#)

SKILLS

Programming languages: C, C++ (OOP, DSA)

Web development (html, CSS, JavaScript)

Basic AI concepts

Tools: Git, GitHub, VS Code, Chrome DevTools, Vercel

Concepts: Responsive design, UI/UX principles

ADDITIONAL INFORMATION

- Personal Skills:** Team collaboration, Time management, Adaptability
- Languages:** English, Urdu
- Certifications:** Elements of AI (University of Helsinki & MinnaLearn), AI Foundations (Simplilearn)
