

QASIM ALI

Software Engineering student

Lahore, Pakistan • 03297909366 • qa4451226@gmail.com • www.linkedin.com/in/qasimali11

SUMMARY

Software Engineering student at PUCIT Lahore. Passionate about building useful and efficient software. I enjoy breaking down problems and writing code that actually works in real situations. Currently exploring development through personal projects and constantly pushing to improve my technical skills.

EDUCATION

Sep 2024 - Present

Bachelor of Science in Software Engineering

Punjab University college of Information technology

- Building a strong foundation with focus on programming, problem-solving, and software development principles.
- Gaining practical experience through coursework and small-scale projects.

Intermediate (Pre-Engineering)

Sept 2022 - Aug 2024

Government college University, Lahore.

- Studied core subjects including Mathematics, Physics, and Chemistry.

PROJECTS

Readability analyzer

Developed a web-based readability analyzer that evaluates text and outputs key metrics like word count, sentence count, and readability level.

Netflix Clone

Built with HTML & CSS Designed a static replica of Netflix's homepage with responsive layout, navigation bar, banner section, and content grid.

SKILLS

Programming language: C, C++ (OOP, DSA)

Web development (html, CSS, JavaScript)

Basic AI concepts

Figma (wireframing & prototyping)

Concepts: Responsive design, UI/UX principles
