SUMMARY

Software Engineering student at PUCIT with hands-on experience in MERN Stack development. Skilled in building responsive web applications, RESTful APIs and secure authentication systems using MongoDB, Express.js, React and Node.js. Passionate about solving real-world problems through software development and continuously expanding expertise in modern web technologies.

EDUCATION

Bachelor of Science in Software Engineering

Punjab University College of Information Technology (PUCIT), Lahore
Expected Graduation: 2028

PROJECTS

PayPulse – Full-Stack Banking Web Application

Technologies: MongoDB, Express.js, React.js, Node.js, JWT Authentication, REST APIs

- Developed a full-stack digital banking application using the MERN stack.
- Implemented secure user authentication and authorization using JWT.
- Built account management, fund transfer and transaction history features.
- Designed responsive user interfaces with reusable React components.
- Developed RESTful APIs for banking operations and transaction management.
- Integrated MongoDB for secure and efficient data storage.
- Deployed the application using Vercel and Render. [Live Demo](#) | [GitHub](#)

Weather App

Technologies: HTML, CSS, JavaScript, Weather API

- Developed a weather application using a public Weather API.
- Implemented real-time city search and weather data retrieval.
- Displayed temperature, weather conditions and related information through a clean user interface. [GitHub](#)

GitHub Profile Finder

Technologies: HTML, CSS, JavaScript, GitHub REST API

- Built a GitHub profile search application using the GitHub REST API.
- Retrieved and displayed user profiles, repositories and public account information.
- Designed a responsive interface with dynamic API integration. [GitHub](#)

TECHNICAL SKILLS

- **Programming Languages:** C, C++, JavaScript (ES6+)
- **Frontend:** HTML5, CSS3, React.js, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database:** MongoDB, MongoDB Atlas
- **Tools & Platforms:** Git, GitHub, Linux, Postman, VS Code, Vercel, Render, Figma
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), API Integration

ADDITIONAL INFORMATION

- **Personal Skills:** Team collaboration, Time management, Adaptability
- **Languages:** English, Urdu
- **Certifications:** Elements of AI (University of Helsinki & MinnaLearn), AI Foundations (Simplilearn)
